My mom's favorite Flower Arranging BookBy Rebecca of With 101 favorite flower arrangements, you are sure to find one you absolutely love. IN fact, I think you will find more than one. Not only are these arrangements easy to create, the step-by-step directions make it even easier.The contents include:Romantic NotionsSpring CelebrationsFaux DesignsSympathy TributesCorsagesWedding BouquetsAutumn BountyHalloweenChristmasThe Roses in a Heart box is quite different than the normal dozen roses and is sure to get a lot of attention. A heart shaped box is sprayed with green paint and then lined with plastic and filled with wet foam. It is then filled with affordable spray roses.The Tulle and Roses Pomander is the perfect gift to give to your mother on Valentine's Day and it can be hung in a special spot or displayed on a pretty tray.There are also ideas for painting regular clay pots, covering props with moss, creating a miniature water garden, arranging a topiary, swirling branches to create a wreath and making a gorgeous rose and foam celtic cross.For autumn, the "Autumn Glow Bowl" is a rather cute idea. This is something you could keep around all Autumn as it is made with an assortment of pods, dried fruits and artificial fall leaves. Some great Christmas ideas using apples and they even have a great idea for a Christmas Tree.This book was more than likely designed for the professional florist which is fine because if you are curious and even just slightly creative, you can make some cute arrangements throughout the year.~The Rebecca Review
