I will be able to set up pages more quickly with the daily themes already created. The dates also provide a great place to look for certain themed pages. For example: look up graduation pages in May or June.

Don't throw yesterday away just crop it! Just place your photo on the page and "Voila", it's perfectly framed within a border. Or crop 'til you drop with beautiful and festive designs and/or decorative elements to clip for every season, holiday, or special occasion. Acid-free and lignin-free paper protects photography. This is a scrapbooker's dream! The calendar lists international holidays as well as moon phases.
