right now. After work, at lunch time for renewal, coloring relaxes you, using the creative side of your brain helps the rest of the day go better. This book is perfect for adults who enjoy detailed whimsical art and school aged children. 1. 30 Illustrations printed one per page (the back of each page is blank) on medium, bright white paper. 2. All markers and some gel pens with leak through this paper so place a piece of paper under the page you are coloring to prevent damage to the next illustrations. 3. You will find intricately detailed creatures from the sea, and half of them have a whimsical touch creating cute creatures for you to color in Markers, Gel Pens, Colored pencils, even crayons for many. 4. 3 of the pictures are oriented facing toward the binding; I found these a bit odd to color. 70 of 71 people found the following review helpful.
