Bonnie Hunter is a great addition to any quilter!By SusanMankeBonnie Hunter is such an amazing woman and she give so much of herself to her fellow quilters! I follow her on Facebook, and watch her live broadcasts. So much support for her followers! She has a talent and such creativity! If you are a quilter or have someone in your life who is. Bonnie's books are a welcome addition to that library! Step by step instructions and easy to follow photos. She encourages creativity, has you follow along, and also helps you think outside the box. Love This Book!By Claja 99's online

book comments This book opened my eyes to the great possibilities of maximizing productivity when strip piecing quilts, or doing ANY sewing for that matter! Long ago I learned that thread "bird nests" on the underside of my sewing could be avoided by starting off the seam with a folded piece of scrap fabric. It never occurred to me that the starter fabric need not be "scrap," but could be quilt pieces! Thanks to this book I now have a quilt that is virtually making itself, while I sew purposefully on whatever project I have going. My thanks to Bonnie K Hunter, author! 1 of 1 people found the following review helpful. Inspirational Practical! By Jane Rosenthal This book is both inspirational and practical. Bonnie gives great ideas for quilts that start with the small pieces that might otherwise get thrown away or end up withering in a scrap pile. Bonnie gives practical tips for cutting, organizing, and then using these little scraps that will not only create a gorgeous quilt, but also make other projects better through using leaders and enders to facilitate sewing. It's brilliant!

What if you could piece quilts even faster, work on more than one quilt simultaneously and save money, fabric and thread all at the same time? Bonnie K. Hunter will show you how to put the concept of Leaders Enders to work quickly and easily, expanding your creativity, and upping your productivity all at the same time. This book contains many ideas for getting your ever burgeoning scrap stash under control.
