The only reason I gave it four stars was that I think it could be better organized. It jumps around a bit and does not explain how some of the books are constructed. That may be simplistic for non-beginners, but this seems to be a beginning book! I found myself enjoying the pictures of the books, but wondering how some of them were made with rings, etc. This book is actually a very good value, but I wish there had been some photos of a book in progress, instead of jumping right in to finished pages! Overall, I am glad that I bought it, even though the instructions are pretty general. 0 of 0 people found the following review helpful. Great Book By kim I love mini books and this book helped me with the basics. You'll really enjoy the easiness of learning and so what if you're not sure, try it, you'll still love whatever you make. 0 of 0 people found the following review helpful. Wee cutie.... By S. A. Tong Great ideas and all in a format that instantly appeals. It's a book full of charm, and crammed with images easy to translate into your own style. Stephanie Ann, New Zealand
