Several of the patterns are repeated just with different backgrounds and there are many that are in bold black and childlike.0 of 0 people found the following review helpful. I was so disappointed in this coloring bookBy CustomerI was so disappointed in this coloring book! First of all the book was put together upside down and backwards. The last page was the only one that was facing the same direction as the front cover. Over half of the pages are poorly printed. You have lots of white space at the top of the page and then the bottom coloring image is running off the bottom of the page so you don't even have the entire picture on the page. So sad!!! There are also several pages that look like they come from a children's coloring book. I could have printed images off of the internet and made a better book than this myself! DO NOT BUY THIS BOOK!!! NOT WORTH THE MONEY!!!!0 of 0 people found the
