Alan Moore : America's Best Comics Primer before purchasing it in order to gauge whether or not it would be worth my time, and all praised America's Best Comics Primer:

1 of 1 people found the following review helpful. The perfect beginning By Nuno Capaz This TPB is the perfect initiation to the Alan Moore's ABC Universe. The America's Best Comics Universe is composed by a bunch of creations from the Grand Master of the comic scripts, and they are all in this precious TPB. This volume collects all the #1 issues of some of the greatest creation from A. Moore. It's not an end to itself, but it's a good start. And if you are a comics fan you will surely feel the appeal to find out more about some of these characters, since most of the stories are kind of one-shots (although the characters remain, the stories normally don't "continue") so it's some nice reading time. If you were a follower of the ABC line, this one doesn't hold any extra goodies ... that's why I didn't give it 5 stars. 0 of 0 people found the following review helpful. Greatest Price Ever for Greatest Comics Ever By Thomas W. Siebert II Possibly the greatest deal in the history of comics -- five bucks for the five #1 issues of Alan Moore's America's Best Comics line, origin stories and anthologies for the entire line, and pre-eminent introductory entertainment to several of the best comics series to run in the late 90s and early 00's. "Top Ten," "Tom Strong," "Promethia," and Greyshirt from "Amazing Stories" would all go on to win major Eisner Awards. If you know these comics, this is all old hat, but if you're looking for an introduction to narrative art and comics, this is the best deal you'll ever find. 2 of 2 people found the following review helpful. The ABC Sampler By J. Sherman "America's Best Comics Primer" is a collection of the first issues of every Alan Moore ("Watchmen," "V for Vendetta") comic published by Wildstorm's imprint. From science hero Tom Strong to mythic warrior Promethia to the super police of Top 10, this collection has a flavor for every taste (and at the cost of a single-issue book). Even Moore's "Tomorrow Stories" shows a lighter, humorous side of the writer few have seen. And let's not forget the various artists whose styles are as diverse as the stories themselves. So if you want to know whether Moore lives up to the hype, but don't want to spend time and money on a complete book, then this collection is a great start. This comic is unrated: Violence,

Adult Language, Adult Situations.
