W. Ben Hunt, J. F. "Buck" Burshears : American Indian Beadwork (Beadwork Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised American Indian Beadwork (Beadwork Books):

3 of 3 people found the following review helpful. great book but not for total beginnersBy UVThis is a good book for beginners. It is also nice to know a little about the backround of native american history in beadworking. The book shows in much detail how the beading is done. Also as for a total beginner as I am, I miss details of the materials tu use. This is why I gave only 4 stars out of 5. As others have posted one can find many colored ideas for designs as well as in black and white. I would buy this book again but for a beginner it should be combined with the Beadwork Techniques by Scott Sutton.0 of 0 people found the following review helpful. Great buy. Thank youBy shiloh12Have

colored patterns, history etc... in this book. Colored patterns give readers an idea of the color schemes to incorporate their own choice of colors. Informative with beading techniques also. Great buy. Thank you. 0 of 0 people found the following review helpful. 5 stars By Amanda Smith Good Bead patterns alot of pictures of beadwork from 1800's (5 stars) for the detailed information in this book!

A handicraft guide to American Indian beadwork for those seeking the fundamentals of construction and ideas of designfully illustrated throughout.
