I have not drawn in a coloring book since I was a child, so it felt awkward buying this. I purchased this coloring book because I recently started drawing the manga style. I was running out of ideas and needed inspiration. This coloring book helped my art and direction. This is a fun book! I must say, there is one thing I would want to change the most in the illustrations are the eyes! One of the main features in anime art is the eyes. Most of the eye pupils have been filled in black, so it is almost impossible to give a dominant eye color. Other than that, this is a good book. The picture I added is one that had eyes I could color my own way. 19 of 19 people found the following review helpful. I Love Anime By KI received this today. I love the artwork and as another reviewer mentioned there are a couple images with cleavage- if this is for a young child tear those pages out. That being said it makes a great

adult coloring book. I think I will color a more adult image for my boyfriend LOL. I will have to copy some images to a heavier pound paper so I can color with markers or color the same picture twice. I look forward to the next volume.0 of 0 people found the following review helpful. Soft PornBy K. AlexanderI bought this for a soon to be 14 year old girl. This is full of what I would call soft porn pics. Certainly NOT for young teens.I was very disappointed. I will not be buying this authors items again.I wanted to send it back, but the postage was almost as much as the book. I think I will just throw it in the trash.
