1 of 1 people found the following review helpful. Bath Bombs.....are the Bomb....!By Melissa P.Easy to follow instructions. Anyone can do this after purchasing the necessary ingredients which are basic to these bath bombs.It has some color options but no information on how to mix colors and make multi colored bath bombs.This book has some good scent combination options and good ideas for scents. I recommend this book for any beginner.1 of 1 people found the following review helpful. Good bookBy Crochet BrigadeThis book is very helpful in getting started making bath bombs.0 of 0 people found the following review helpful. Confused...By Deborah HughesHave only just gotten the book and not tried any recipes yet...however, I am confused. In the beginning of the book where it lists ingredients needed, it says to use "...super fine granules" of citric acid as the powdered is too volatile. Yet, the very first recipe calls for "powdered" citric acid. Anyone can help me with this? I have "fine" granulated citric acid, will it work? Could the author have meant solid as opposed to liquid perhaps?
