It was exactly like the description said it would be and has great patterns in it. I am just beginning to do intarsia and I think this book will be a great help in learning to do that. There are lots of good patterns and directions in the book.2 of 2 people found the following review helpful. Love this bookBy SharonThis has so many projects that I cannot wait to get started on. The ornaments are all beautiful patterns. There are projects for all

skill levels, from simple cut outs to more involved layered pieces. I am looking forward to making many of the items in this great book.0 of 0 people found the following review helpful. Five StarsBy mike stoneReview here
