**Erik DePrince : Big Outer Space Coloring Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Big Outer Space Coloring Book:

0 of 0 people found the following review helpful. Great coloring boomBy deji love this coloring book. The pictures are great, and the paper weight is nice as well. We bought it for our 4 year olds birthday. It's really a lovely coloring book.0 of 0 people found the following review helpful. Five StarsBy Customergreat coloring book for little ones. Not too detailed, nice big pictures5 of 5 people found the following review helpful. Perfect coloring book for little space cadets!By Love2ColorThis coloring book is fantastic! It's perfect for kids interested in outer space. There are so many coloring book choices on the market now for girls but it's been hard to find really nice, thoughtfully designed books for younger kids, especially for boys/unisex like this one. Plus, all the coloring books I've seen in stores for young kids are printed on that terrible grayish newsprint paper and that's no fun to color on. This book's paper is bright white, nice and thick and the pages are printed one side only. Crayons, gel pens and markers work great. I bought it as a gift but

wish I had this book when my son was younger! It would have kept him busy for hours. The illustrations by Erik DePrince are sweet and imaginative with just the right amount of detail for young colonists. Looking forward to seeing more fun titles like this!

Kids will love this BIG coloring book full of astronauts and space scenes that are out of this world! With 50 pages of rocket ships, astronauts, space aliens, moon bases and more kids will have a blast coloring! Pages are printed on one-side only for an excellent coloring experience.

About the Author Erik DePrince is a children's illustrator with over 20 years experience creating art for apparel, products, and publishing.
