**Justine M Crane : Botanical Soap Making Using Perfumery Techniques Revised 2014** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Botanical Soap Making Using Perfumery Techniques Revised 2014:

The third revised edition of Botanical Soap Making Using Perfumery Techniques includes a suppliers' list, previously not included in the first and second editions, as well as revised formulating information, and additional words on creating perfumery compounds for soap making. Also included in this edition is a sample Essence Evaluation

Worksheet, and a template Soap Formulation Worksheet.
