Brigitte Fux : Bouquets: Floral Arrangements of the Masters before purchasing it in order to gage whether or not it would be worth my time, and all praised Bouquets: Floral Arrangements of the Masters:

This handsome volume pays homage to fourteen artists and their renowned floral paintings--while also offering practical ideas for beautiful flower arrangements in the home. Stunning, richly authentic reproductions of van Gogh's Sunflowers, Matisse's Vine of Irises, and Renoir's Bouquet of Chrysanthemums, and many others are complemented with striking color photos of similar arrangements assembled by the author.

Master flower painters are celebrated in a volume which gathers works from the earliest flower artists to contemporary creators. These paintings serve as models to demonstrate various decors inspired by living arrangements: use this as a practical guide to creating floral displays as well as an excellent beginner's guide to floral art. -- Midwest Book Language NotesText: English (translation) Original Language: French
