Sheperd Paine : Building and Painting Scale Figures (Scale Modeling Handbook) before purchasing it in order to gage whether or not it would be worth my time, and all praised Building and Painting Scale Figures (Scale Modeling Handbook):

5 of 5 people found the following review helpful. a must haveBy challengerI remember when this book was on the shelf in the local hobby shops.Now out of print it is a much sought after publication and for good reason. It was a good resource then and still is. If you are looking at starting to build or paint figures, Shep Paine is a world renowned master modeler who takes the novice through a step by step process with plenty of good images and text to back them up.In a world where more and more great subjects are available to the aspiring figure modeler, this kind of resource is invaluable to have beside you on the work bench.2 of 2 people found the following review helpful. Excellent book for beginners or experienced painters who want to ...By George J. LewisExcellent book for beginners or experienced painters who want to take their painting of military miniatures to a new level. Shep Paineis the premier figure painter of our time and shares his vast knowledge of painting, shading, detailing, converting, and scratchbuilding.This is a must have book for any serious builder or painter of military miniatures!3 of 3 people found the following review helpful. Worth every pennyBy Mark FairShows some very good illustrations on painting and layering skin tones. I would highly recommend this to anyone who is trying to improve on their miniature painting skills

How to select tools, equipment, and paints to produce great looking figures in a few easy steps. Includes photos

showing assembly, painting, and detailing techniques.
