Popular Woodworking Editors : Building Cabinets, Bookcases Shelves: 29 Step-by-Step Projects to Beautify Your Home before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Cabinets, Bookcases Shelves: 29 Step-by-Step Projects to Beautify Your Home:

18 of 19 people found the following review helpful. Lack of detail
By M. VanDyke
Lack of detail in the more complex projects makes this book unusable for me. When the author only dedicates a handful of pages to complete a big task; just not worth the money. It would even be nice if they offered additional plans to compliment for extra money. To no avail...5 of 5 people found the following review helpful. good second book
By Alvin Glen Krueger Jr
this is a good book- plenty of ideas, and simple instructions on how to realize them. first book should be a good joint/assembly book, but this could be an excellent 2nd book for the beginning woodworker.

helpful. There are better books I'm sure. By Ron B. Rather disjointed in the way the designs are presented. It's not at all what I had hoped.

A Place for Everything... Whether you need storage for books, DVDs, games or clothes, you'll find attractive, custom options in this book. Open shelving? An enclosed cabinet? A classic bookcase? They're all here. Building Bookcases, Cabinets and Shelves offers 29 storage solutions in a variety of styles and sizes with both open and enclosed storage. Each project includes cutting lists, step-by-step instructions and tips and advice from professional woodworkers who have made each piece. Best of all, you can build them just as they are, or customize further to make each piece uniquely yours.
