Helen Dickson : Bustle Sew Autumn Collection 2016 before purchasing it in order to gage whether or not it would be worth my time, and all praised Bustle Sew Autumn Collection 2016:

Autumn Season of mists and mellow fruitfulness (of course!) and also the season that inspires this collection of warm and mellow sewing and embroidery patterns perfect for some autumn stitching. Yes, its time to light the woodburner, make yourself a delicious mug of hot chocolate and snuggle down on the sofa with your latest project. Inside our collection youll discover woodland creatures, flora and fungi too, in a carefully curated selection of designs ranging from tea cosies, cushions and embroideries to a lovely little handbag and even a nursery height chart! We hope theres something for everyone between the covers and, just to keep you entertained (and because we love all of life here in the English countryside, not just stitching) weve also, in true Bustle Sew style, included some seasonal extras too! Read about bringing the harvest home, the joys of candlelight and bake yourself some delicious chocolate cinnamon

brownies. There are a dozen patterns in this collection, all of which are shown on the cover for easy reference. All the templates are full size so theres no messing around with resizing. I dont mind if you want to sell any of the projects you personally have made and it would be super-lovely if you credited Bustle Sew with the design.
