Was great for ideas when my grandson visits though.

"For green grandparents everywhere and the young lives they touch." RICHARD LOUV, AUTHOR OF LAST CHILD IN THE WOODS Make leaf rubbings, blow jumbo bubbles, bake Moon Pizzas, create a firefly lantern. More than an activity book, CAMP GRANNY is an interactivity book, filled with 130 projects that connect grandparents and grandchildren through naturein the kitchen, the garden, and the art room. Illustrated with evocative photographs and the authors watercolors, CAMP GRANNY is a book about being adventurous, about being curious, about noticing and really seeing thingsabout instilling a lifelong sense of wonder. Please note: CAMP GRANNY was previously sold

under the title Toad Cottages Shooting Stars.

Sharon Lovejoy calls this treasure trove of crafts, recipes and activities a natural outgrowth of the way I have always lived and interacted with children. Many of the ideas and projects originated from her journal notes and sketches. Who could resist a Faeries Tea Party where Heart- and Star-Shaped Faerie Sandwiches and Button Pie appear on the menu? Or building the title cottage for a toad and collecting leaves and flowers for a 3-D collage? More than 130 activities encourage an exploration of both the natural world and a child's imagination. Clear instructions, illustration and abundant photos make each project inviting, and a list of ingredients makes them manageable. The book is about unplugging from electronics and plugging into adventures, projects, discoveries and the simplest pleasures of childhood, says Lovejoy, watching shooting stars, following animal tracks, creating art, and keeping family history and traditions alive.
