**Beth Shaw : Candle Making Genius - How to Make Candles That Look Beautiful Amaze Your Friends** before purchasing it in order to gage whether or not it would be worth my time, and all praised Candle Making Genius - How to Make Candles That Look Beautiful Amaze Your Friends:

3 of 3 people found the following review helpful. Book was ok. Defently a beginners book, but ...By CustomerBook was ok. Defently a beginners book, but defently not for healthy candle making.If you want to make paraffin wax

candles with additives then this is the book for you. If you want to make beeswax or soy. This book is not for you. 4 of 4 people found the following review helpful. What a great book for the beginning candlemaker! By Cathy Collier This book makes candlemaking look easy. The instructions are clear and easy to follow, and the authors suggestions about what to buy when you first start are sensible and welcomed. I also like her lists of online sites to buy candlemaking supplies and sites with information and more projects. Ive been looking for a new hobby since Im no longer able to make jewelry due to vision problems, and I think this will be it. 0 of 0 people found the following review helpful. Intrigued enough to want to try candle making By Farmhouse Lady Very nice introduction to this craft. I still have some procedural questions, having never done this before, but they are minor. There are some ideas about various things you can do besides just making a typical candle that are inspiring. I also like that price ranges for various things were given. I am interested enough, just by reading this book to look into purchasing a starter candle making kit.

Discover how to make quite simply the most wonderful looking candles. Inside this book you'll discover my step by step formula to producing beautiful candles - candles that look like they were made by crafts people after years of training. You will amaze your family and friends with professional looking candles - using the secrets, techniques and tips that I share with you. You'll be able to make almost any type of candle you can imagine. Included in this book are details on making everything from beautiful rolled wax candles, floating candles and even the really popular container candles. I'll also show you how to produce stunning gel candles. These were among my best selling candles - because they look sensational. There are also special sections on using soy wax. Then, just to you give your candles the professional finish, I'll give you tips on how to decorate and embellish them. Plus how to package them if you are making gifts or selling candles. Plus if you have any problems there is a detailed guide on how to troubleshoot and fix. This is a truly comprehensive guide giving you the best candle making formula. Everything is covered from choosing the correct wick (you'd be surprised how many people make these easy errors), colours and fragrances.
