The photography was poorly done, black and white, and extremely sparse. The information was for the extremely new at the hobby, not anyone with any experience as it implied. As for me, he book went straight to the trash.0 of 0 people found the following review helpful. Good, not GreatBy LuzDelisse101Its not a

bad book but i expected something else from the little part that i read. But i would still recommended to people. It was still a very informative read!0 of 0 people found the following review helpful. great book. very thorough and informativeBy Jennifer StepanikIt's clear this guy has practical experience as well as knowledge. Would have like a few extra images . However the content was great

Candlemaking is an ancient and highly enjoyable art. In this comprehensive book, readers will learn how to create many different kinds of candles including flame candles, balloon candles, and pudding candles. There are dozens of different styles to choose from, and the skill levels range from beginner to expert.
