**From Rita Weiss : Charted Monograms for Needlepoint and Cross-Stitch (Dover Embroidery, Needlepoint)**

before purchasing it in order to gage whether or not it would be worth my time, and all praised Charted Monograms for Needlepoint and Cross-Stitch (Dover Embroidery, Needlepoint):

0 of 0 people found the following review helpful. Fantastic book with step by step instructions for multiple different ...By CaitlinThis is a fantastic book with step by step instructions for multiple different fonts and motifs. I have used this book as a guideline in creating multiple projects. The instructions for creating each letter are easy to transcribe and follow. I purchased this book as a beginner and I found the instructions easy understand and simple to follow. The

letters contained in this book go from simple block lettering to fancy and elaborate script that resemble artwork instead of the alphabet. I have loaned this book to many friends who have loved this book so much that they have purchased it for their own collections. I would recommend purchasing this book for yourself, for a friend or even to give as a gift to a novice cross-stitcher. This is a book that will remain in your collection for many years and will be passed down to future generations. In short, I am extremely pleased with this purchase and would recommend this book to any person interested in learning multiple different alphabets, no matter their experience level. 2 of 2 people found the following review helpful. Beautiful monograms By Victoria L. Kerns I love this book but it's hard to put monogram together if they are not already pictured as such. For instance a v with a c is not shown together so you have to look for them each separately to halfway belong together. It does help with accuracy or whatever though. 1 of 1 people found the following review helpful. Ideas for using them and easy to read patterns By Yankee Many elegant monograms to choose from. Ideas for using them and easy to read patterns. Enjoyable for stitchers at every level.

The monogram is an attractive and popular way of personalizing your wardrobe or household linens: tablecloths, napkins, sheets, pillowcases, towels, handkerchiefs, blouses, shirts, dresses, sweaters, jackets, and other items. This collection contains 350 unusual and striking monograms taken from a rare Viennese album printed at the turn of the century. All the monograms that can be composed with pairs of letters are here. The book also includes a number of crowns plus several large and small alphabets with numerals, both Roman and Arabic. All are charted for ready use in different forms of needlework needlepoint, latch-hooking, counted cross-stitch, crochet, or knitting. The informative introduction tells you how to enlarge or reduce the monograms, and gives simple directions on how to do them in your favorite form of needlework.
